Breaker panel

What each breaker in this house turns off.

A breaker tripped

Hot, wet, buzzing, sparking or smelling: keep everyone back. Get everyone out. Call 911.

At the panel, the handle sitting in the middle or at OFF. None? Press Reset on an outlet with buttons, in a bathroom, kitchen, garage or outside.

Unplug what was running. Flip it to OFF, then ON. Firmly, all the way. Warm, dark or smells burnt? Leave it off. Trips again? Leave it off.

PANEL IS IN

ELECTRICIAN

BREAKER	TURNS OFF	BREAKER	TURNS OFF
